Figure 1. Schematic representation of the experimental design. The first part of the study was a pretest in which the effect of the number of items on the recognition of the faces was tested. The second part of the study was a main experiment in which the effect of the number of items on the recognition of the faces was tested. The third part of the study was a posttest in which the effect of the number of items on the recognition of the faces was tested.

1. **Identify the main components of the system.** The system consists of a **client** and a **server**. The client is responsible for sending requests to the server, and the server is responsible for processing these requests and returning responses.
